

Temperature Transmitter

(Temperature Sensor) RTDMD00

Low Cost!!!

<i>Input</i>	RTD, 3 Wire Type
<i>Output</i>	1 No. RS 485 COM Port for communication / Interface <u>Protocol</u> : MODBUS (Slave)
<i>Range</i>	0 ⁰ to 300 ⁰ Max. Temperature (Selectable)
<i>Display</i>	4 Digits, Seven Segment LED Display
<i>Supply Voltage</i>	24 V DC Supply
<i>Supply Tolerance</i>	± 10 % of Supply Voltage
<i>Type</i>	In-Head Mounted
<i>Resolution</i>	12 Bits
<i>Mounting Head</i>	Mounting Head With 0.5 DSP Nut of SS. Sensor will be mounted on a round mounting head.
<i>Features</i>	<ul style="list-style-type: none"> ➤ With Front End Processor ➤ Unique Embedded Solution to establish Interfacing ➤ Fast Response Time ➤ Printing Format can be downloading through download Software
